JAC 101 Electronic Indicator with a large easy to read display

ADDITIONAL ITEMS FOR USE WITH THE IH1949

The IH 516 Industrial Stand and the IH 164 Protection Frame are available as additional options designed to complement the IH1949 platform scale.

The JAC 101 Indicator is designed as a portable and easy to read display unit which can be attached via the IH 516 Industrial Stand to the IH1949 Platform Scale.

IH 516 Industrial Stand

features

- Mild steel construction
- Painted yellow epoxy paint
- Rugged industrial design
- Can be portable or fixed
- Excellent protection for your electronic indicator
- Height of post - 1000mm
- Base - 350mm x 350mm

JAC 101 Indicator can be fitted as standard no other bolts or nuts required

IH 164 Protection Frame

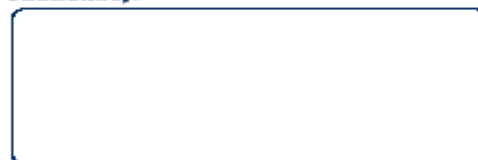

features

- Suits any platform size for the IH1949 Platform Scale
- Painted in yellow epoxy paint
- Very rugged design
- Locating guide in each corner
- Manufactured using 130mm x 65mm channel
- 25mm level feet
- Complete with forklift runners

Makes your floor scale fully portable and provides protection against forklift tines and side loading
